I have chosen Maintain on most due to the current economy. However, my personal choice would be to increase funding. Just does not seem likely to happen in 2009.

6. STEM CELLS - During the 2008 Kansas legislative session, legislators did not engage in much stem cell research or definition discussion, while in other states (such as Missouri), the topic seemed to dominate their legislative session. Do you feel that stem cell definitions and guidelines should be determined at the federal level or at the state level?

My choice would be at the federal level. But again, I do not feel that may happen anytime soon, so we need to push forward on a state basis.

Yes.

By supporting it and not being afraid to speak out for it.
