

Legislative BioBuzz: Week of March 15 – 19, 2010

Angel Investor Bills Easily Approved by Full House

The House of Representatives easily approved by a vote of 199-5, [SB 430](#), the tax credit bill that includes KansasBio's provision allowing for the carry forward of angel investor tax credits. It now goes to a conference committee of House and Senate members to negotiate difference between House and Senate versions of the bill. Conferees for the Senate are Senators Les Donovan, Derek Schmidt and Tom Holland. House Conferees are Representatives Richard Carlson, Jeff King and Julie Menghini. KansasBio staff is communicating with conferees to remind them of the importance of the angel investor credit. Also approved by the House was HB 2621, the bill that allows for the electronic transfer of angel investor tax credits. The bill originally eliminated the transferability of the credit, but KansasBio and KTEC were able to work with the Kansas Department of Revenue to find acceptable language to amend the bill. HB 2621 was approved by a vote of 122-1.

Blender Bill Informational Hearing

The House Agriculture Committee held an informational hearing on the contents of what was previously of SB 425, the ethanol blending bill. The original bill was killed at the request of House Leadership, but remains alive due to strong support from many legislators. Steve McNinch, Kansas Association of Ethanol Processors, and Tom Palace, Petroleum Marketers and Convenience Store Association, testified in favor of the bill. Palace cited that his members need non blended gas at terminals so they can blend higher levels of ethanol its at retail stations. He cited Kansas blends about .8 of 1 percent of ethanol in the nation. And the bill does not stop terminals from blending ethanol. Members want the option to purchase clear fuel and blend. McNinch testified that blending at the pump guarantees that RIN savings are passed on to the consumer. Otherwise, they are absorbed by the oil companies.

Opponents included Ken Peterson, Kansas Petroleum Council, and Galen Menard, NCRA Refinery. Peterson testified that this is contractual matter between oil companies and marketers and should stay as such. Menard testified that ethanol blending away from terminals is the best way to blend. He cited that NCRA has invested a lot of money and capital for blending and opposes the mandate that this bill requires.

Tax Debate Postponed

The House postponed a debate on a tax increase bill until May 3rd. Last week, the House took up [HB 2549](#), a bill that requires that all residential customers pay sales tax on utilities, all non-profit and religious organizations pay sales tax on their purchases and consumers pay taxes on miscellaneous items, such as lottery tickets, bingo, and coin-operated laundries. It is estimated

that taxpayers will pay an additional \$160 million in taxes previously exempt. After stripping the bill of all measures except a tax on coin-operated laundries, a motion was made by Rep. Nile Dillmore to postpone any further action on the bill until May 3rd when new revenue estimates are available. The motion was approved and the bill will be debated at that time. It is widely believed by many that a tax increase will be needed to balance the forecasted half billion state revenue shortfall. However, House Republicans have provided a budget that finds the savings through additional cuts and budget adjustments.

Senate Committee looks at Sales Tax Exemption Repeal

The Senate Ways and Means Committee held hearings on [SB 476](#), a bill removing certain sales tax exemptions and imposing a sales tax on certain services that under current law are not subject to sales tax. The bill includes requirements that all residential customers pay sales tax on utilities, all non-profit and religious organizations pay sales tax on their purchases and consumers pay taxes on miscellaneous items, such as lottery tickets, bingo, and coin-operated laundries. Groups specifically mentioned by name would also be required to pay sales tax. It is estimated that taxpayers will pay an additional \$168 million in taxes previously exempt. The vast majority comes from the utilities tax.

Senate Tax Bills Fail

The Senate Tax Committee held hearings on and voted down several bills that would raise the statewide sales tax and other targeted items. They considered and did not advance the following proposals:

- To increase the statewide sales tax to 6% (from 5.3%) for 3 years. It then reverts back to 5.5%.with .2% going to the state highway plan. It was estimated to raise \$260 million in 2011, \$290 million in 2012, and \$304 million in 2013.
- To increase Cigarette Tax by 30 cents to 1.09 per pack. It was estimated to raise \$30 million.
- To increase liquor taxes by increasing the liquor enforcement tax from 8% to 12% and liquor drink tax from 10% to 15%. It was estimated to raise \$35.5 million.
- To place a tax on sweetened beverages and liquids by imposing a .4 cent increase per teaspoon of sweetener. It was estimated to raise \$40million.

House Appropriation Committee Approves a No Tax Increase Budget

The House Republican led appropriations committee approved a budget that brings \$720 million in the state budget without a tax increase. The vote passed strictly on party lines. Their proposal includes but is not limited to: 1) concurring with the governor's recommendation to cut \$76.7m from the state budget; 2) Transfer \$50m from the state highway fund; 3) Deleting the governor's increase for K-12 base state aid. (\$32.8m); 4) 5% pay cut for all state employees except corrections, highway patrol, state hospital workers (\$21.1m) by closing on Fridays at 3pm; 5) Maintain current education funding (\$171.9m); 6) Freeze the states retirees rate (\$37.9m); 7) Delay disaster payment until omnibus (\$24.8m); 8) 1% State General Fund cut across the board except education and caseloads (\$15.9m); and 9) Assume Congress gives 6 month extension on medicaid \$131m. The full House will debate the proposal this week.

Green House Gas Resolution

The Senate Natural Resources Committee held a hearing on and approved SR 1809, a resolution opposing the United States Environmental Protection Agency's greenhouse gas regulation by rulemaking. This is a nonbinding resolution aimed at expressing the will of the Kansas Senate to the federal government.
