FACT

KC regional CROs have expertise in **every stage** of drug development – from **compound identification** to **post-marketing studies** – required to identify new drugs and bring them to market.

FACT

KC regional CROs generate more than **\$1 billion** in annual revenue. The Kansas City region is home to **70+ CROs** employing more than **9,000 employees**.

## PHARMACEUTICAL and BIOTECH COMPANIES

Engage with the thriving community of KC's regional CROs for the benefit of your company.

- KC region CROs have helped develop more than 50 of the world's top drugs.
- Leverage and build upon KC region CRO's expertise and more than 30 years of experience.
- Low cost of doing business paired with top-tier globally-ranked services offer a uniquely attractive location.
- By working with multiple CROs in one region, sponsors can simplify the management of outsourced research.
- KC region CROs can meet both the large-scale needs of major pharmaceutical companies and provide the more personal, hands-on partnership valued by emerging biotech companies.
- KC region CROs represent one of the nation's greatest geographic concentrations of experience with pharmaceutical development, clinical research and bioscience services companies.
